

STUDENT PERFORMANCE ANALYTICS & DECISION SUPPORT SYSTEM

Strengths:

Strength	Description
Centralized Data	Single source of academic information
Automated Reporting	Reduces manual effort
Analytics Capability	Provides deeper academic insights
Early Risk Detection	Enables proactive intervention
Scalable Design	Can expand to other grades

Weaknesses:

Weakness	Description
Initial Data Migration Effort	Existing records need cleaning
Manual Data Refresh	Initial version requires periodic updates
User Training Required	Teachers need adoption support
Limited Historical Data	Trend analysis may initially be limited

Opportunities:

Opportunity	Description
Expand to Other Grades	System can support entire school
Predictive Analytics	Future AI-based risk prediction
Parent Reporting	Future communication platform
LMS Integration	Connect learning activities

Threats:

Threat	Impact
Incorrect data entry	Wrong analytics results
Privacy concerns	Student data exposure
Resistance to change	Low adoption
Technology limitations	Reporting issues
